APPENDIX A

| 1 | 26. | (New) A method for reporting on network analysis, comprising: | |
|---|---|---|--|
| 2 | | collecting network traffic information utilizing a plurality of information | |
| 3 | collectors installed in computers distributed among a plurality of zones; | | |
| 4 | | receiving the network traffic information collected from the information | |
| 5 | collec | collectors associated with each zone at an information collector manager; and | |
| 6 | | generating a report on the network traffic information associated with a selected | |
| 7 | one of the zones. | | |
| 1 | 27. | (New) The method as recited in claim 26, wherein the information relates to | |
| 2 | | wireless network traffic. | |
| 1 | 28. | (New) A computer program product for reporting on network analysis, | |
| 2 | • | comprising: | |
| 3 | | computer code for collecting network traffic information utilizing a plurality of | |
| 4 | information collectors installed in computers distributed among a plurality of zones; | | |
| 5 | | computer code for receiving the network traffic information collected from the | |
| 6 | information collectors associated with each zone at an information collector manager; | | |
| 7 | and | | |
| 8 | | computer code for generating a report on the network traffic information | |
| 9 | associated with a selected one of the zones. | | |
| 1 | 29. | (New) The computer program product as recited in claim 28, wherein the | |
| 2 | | information relates to wireless network traffic. | |
